

I am concerned about the possibility of losing my local radio station K-LOVE (88.9, 89.9 and 88.5 FM). If LPFM is given priority, I will not have the one and only station that I listen to. K-LOVE serves this community by providing wholesome, encouraging, Christian music as well as keeping us informed of local Christian events. Without K-LOVE, local Churches can not advertise their events free - besides, Christians do not always listen to those "other" stations so we simply would be uninformed. K-LOVE provides a loving, non-denominational, Christian presence that gives people (Christian and non-) a place to call for prayer if needed, or encouragement. This encouragement comes through the music they play and the scripture that is shared. Please do not let anything disrupt the station that has provided so many with so much. In this world of troubled times, there needs to be a place of light and that is K-LOVE.
